

Photos on Fused Glass

Capture your moments on glass! Choose from either a sepia-toned image or a colour image up to 4"x6". Christmas ornaments remain a popular choice and are created with either hooks or drilled holes for hanging. Other options include glass pieces that hang on a wall.

Minor Photoshopping, colour & exposure corrections, and your choice of wording, such as a child's birthdate or Christmas sentiments, is included in the regular price. Restoration or major customization/correction is extra.
